

➔ AL FATTAN TOWERS AL WASL, DUBAI, UAE.

Designed as an exclusive urban community, Al Fattan Downtown features a three-skyscraping glass volume and 33-storeys in height each, it also comprises an evergreen appearance due to the accents of scattered plants all over the balconies.

To harmonize with the modern and elegant architecture of Al Fattan Downtown Towers, **SWITCH MADE** Group took charge of flourishing the interior space by providing high-quality LED-powered luminaires. Starting in the main reception lobby, a total of 1-kilometer trimless recessed Linear Profile luminaires were installed in the reception backdrop up to the ceiling giving an ultra-modern appearance to the entire space. The hallway of each floor was accentuated with 2500 pieces of high-efficient low-power accent lights resulting in a cozy and homey vibe.
