

COMMERCIAL OFFICES

➔ AMANAT OFFICE DIFC, DUBAI, UAE.

A comfortable working environment for every employee is the top priority when designing the office for Amanat Holdings, a private joint-stock company based in Dubai, UAE. The office features a comprehensive modern design and a spacious workspace that is flooded with lights.

A wide array of ceiling-recessed luminaires were used in most of the areas in this office. With a balanced beam light distribution, these LED downlights provided an efficient and uniform illumination to every area to achieve an adequate brightness. **SWITCH MADE** linear luminaires gives a subtle and sleek layout to the common areas such as staff cubicle spaces and conference room. These combinations of Switch Made lights embellished both the architectural structure and the positive working environment of the office!
