→ BENTLEY CAFE MARINA, DUBAI, UAE.

SWITCH MADE manufactured and supplied Circular LED panels for Bentley Cafe - Dubai, located on the ground floor of Al Habtoor Business Tower in Dubai Marina.

The complete sales area needs to be lit with pure and homogeneous lighting effect, without having reflections on the wall, ground and cars. We have proposed circular LED panels which is the best solution because of its frosted diffusion of the light, a modern and discrete finishing and excellent lighting performance.
